Atharva Unde

DevOps Engineer

Certified AWS Associate Solutions Architect and Terraform Associate with experience in AWS, Vue.js, Node.js, and Docker. Skilled in optimizing cloud infrastructure, automating deployments, and streamlining software development processes.

Experience

CareerLabs Technologies Pvt. Ltd

Software Developer Engineer III

December 2022 - Present

1. Applied **AWS SAA-CO3** and **Terraform Associate (HCTA0-003)** certifications experience to achieve 60% cost savings through optimized infrastructure.
2. Streamlined **Jenkins** CI/CD pipeline, reducing build time by 50%.
3. Implemented **Grafana** monitoring for centralized log management and ensured high availability of **EC2, RDS, SQS**, and **S3** for 3 environments.
4. Improved system up time by integrating up time monitoring tools with Google Chat and Telegram, enabling real-time notifications for immediate response to service outages.
5. Leveraged **Node.js** and **micro-services** architecture to implement scalable third-party integration's, seamlessly integrating CPaaS and SaaS solutions into our applications.

Software Developer Engineer II

Dec 2021 - Dec 2022

1. Implemented custom WhatsApp solution based on Cloud APIs, reducing CAC and saving 2.5L+ INR on platform charges.
2. Developed in-house **URL Shortener** with click analytics and RBAC, serving 2L+ clicks.
3. Created CRM data sync utility for seamless integration.
4. Built scalable integration bridges with **Moodle**, **Verloop.io**, **JIRA**, and **Squarespace Scheduler.**
5. Wrote and maintained business-critical **Node.js Microservices**, containerizing applications for scalability.

Product Associate

Dec 2020 - Dec 2021

1. Dynamic project management lead for CareerLabs' Unified Portal, fostering collaborative partnerships and driving successful outcomes.
2. Meticulously developed comprehensive **PRDs** and facilitated seamless project rollouts, leveraging design tools like **Figma** and **Adobe XD** for enhanced implementation.
3. Insightful in conducting thorough product research, delivering invaluable insights to stakeholders and driving informed decision-making.

Graduate Trainee

Sept 2020 - Dec 2020

1. Proactive graduate trainee, embracing collaborative synergy across diverse teams at CareerLabs and gaining valuable insights into interconnected workflows.
2. Developed a solid foundation in student career counseling, providing tailored guidance by leveraging academic records, extracurricular activities, and target university preferences.

Maharashtra Police (CPR: Wireless Department)

Tech Lead & Front End Developer (Intern)

Jul 2019 - Oct 2019

Led a team of 10 developers in designing and implementing a cutting-edge, containerized internal communication system using **Vue.js** and **Node.js**. Upgraded outdated satellite-based systems, integrating multiple **micro-services** for enhanced functionality. Served as a tech lead, driving innovation and efficiency throughout the internship.

TEDxPCCOE: Solve for WHY

Marketing & Communications Head

Aug 2019 - Oct 2019

Played a key role at TEDxPCCOE, managing social media presence and curating engaging posts for maximum audience engagement. Achieved remarkable 20x+ growth in Instagram impressions and increased website traffic through impactful content strategies. Created and maintained TEDxPCCOE website, fostering stronger audience connections.

Projects

CareerLabs Infrastructure Migration (AWS to Azure)

DevOps Engineer, June 2023 - Present

1. Conducting research to assess **Azure Kubernetes Service (AKS**) suitability for our infrastructure.
2. Overseeing the seamless migration from **Docker Compose** to AKS to achieve pod (HPA) and node autoscaling.
3. Developing strategies and executing database and container registry migration to Azure.
4. Monitoring the migration process, resolving issues to ensure a smooth transition.
5. Configuring **Jenkins** on the **AKS cluster** for efficient CI/CD.
6. Modifying shell-based build scripts to align with AKS deployment requirements.
7. Setting up **Nginx Ingress Load Balancers**, **Grafana** Monitoring and **Azure CDN** Front Doors and **Azure Storage Accounts**

CAP Center Automation

Final Year Project

1. Led the "CAP Center Automation" project to redesign and improve the exam management for colleges.
2. Developed **micro-services** using **Node.js**, **MySQL**, and **Vue.js** stack.
3. Improved process efficiency and streamlined operations.
4. Achieved significant time savings and accelerated overall process.

Departmental Result Analysis & Visualization

Third Year Project

1. Developed a **Power BI dashboard** for university results analysis.
2. Extracted data from a **MySQL** database to populate the dashboard.
3. Utilized Power BI's visualization features to present meaningful insights and trends for a specific department's results.

Education

Pimpri Chinchwad College of Engineering (University of Pune)

Bachelor of Computer Engineering, Sep 2016 - Oct 2020 — 7.13/10 GPA

Shri Fattechand Jain Jr College

12th Board, Sep 2014 - May 2016 — 60.62 %

M.S.S. Highschool

10th Board, May 2014 — 94.40 %
