

ATHARVA UNDE

Assistant Engineering Manager · Node.js · Microservices · Cloud-Native

+91 9561027164 | atharv.unde59@gmail.com | [LinkedIn](#) | [GitHub](#) | atharvaunde.com

PROFESSIONAL SUMMARY

Backend engineer and engineering lead with 4+ years shipping production Node.js microservices across FinTech, EdTech, and SaaS. Independently architected and delivered four production SaaS products in under 12 months - owning backend, APIs, and cloud infrastructure end-to-end. Built an OCR pipeline using that cut document processing time from 2–3 hours to under 10 minutes (~92% reduction), directly changing how accountants work. Currently leading the engineering team at Confiance Bizsol, driving clean architecture standards, structured code reviews, and cloud-native best practices. AWS SAA, KCNA, Terraform, and Azure certified.

TECHNICAL SKILLS

Backend	Node.js · Express.js · REST APIs · Webhooks · SQS · RabbitMQ
Databases	PostgreSQL · MongoDB · Redis · Sequelize ORM
Cloud & DevOps	AWS (EC2, EKS, S3, SQS, CloudFront, IAM) · Azure (AKS) · Docker · Kubernetes
IaC & CI/CD	Terraform · eksctl · Jenkins · GitHub Actions
Integrations	Shopify · QuickBooks Desktop & Online · WhatsApp Business API · Moodle · JIRA · LeadSquared · Zoho CRM · Mixpanel · CleverTap · Moodle LTI

PROFESSIONAL EXPERIENCE

Assistant Engineering Manager · Confiance Bizsol Pvt Ltd

Apr 2025 – Present

Ahmedabad, India · On-site

- ▶ **Leading engineering team**, establishing clean architecture standards, conducting structured code reviews, and mentoring junior developers on backend and cloud best practices.
- ▶ Built a **QuickBooks Desktop and QuickBooks Online data import pipeline**.
- ▶ Built an **OCR pipeline** that reduced document processing time from **2–3 hours to under 10 minutes per statement** (~92% reduction).
- ▶ Driving code quality through structured reviews, architectural guidance, and introduction of engineering best practices across the team.

Software Development Engineer L2 · Confiance Bizsol Pvt Ltd

Jul 2023 – Apr 2025

Ahmedabad, India · On-site

- ▶ Architected and delivered a suite of Node.js microservices, containerised and deployed on **K8s with 100% uptime** since deployment.
- ▶ Built and maintained backend integrations with **Shopify and QuickBooks Online**, automating data synchronisation workflows and reducing manual accounting effort by ~60%.
- ▶ Identified and resolved latency bottlenecks across two high-traffic services, achieving a **20–30% reduction in response times**; instrumented with Sentry for ongoing performance tracking.
- ▶ Designed API contracts and integration patterns for seamless service-to-service communication in a distributed microservices architecture.

Software Development Engineer III · CareerLabs Technologies Pvt. Ltd

Dec 2022 – Jul 2023

Remote

- ▶ Architected Node.js microservices for CPaaS/SaaS integrations including VerLoop and WhatsApp Business APIs, emphasising robust API design, reliable data processing, and fault tolerance.
- ▶ Adapted and hardened Node.js services for seamless operation in **Azure AKS** following a full AWS-to-Azure infrastructure migration.
- ▶ Contributed to application monitoring improvements and deployment optimisations, improving system stability and release velocity.

Software Development Engineer II · CareerLabs Technologies Pvt. Ltd

Dec 2021 – Dec 2022

Bengaluru, India · On-site

- ▶ Designed and implemented a **high-throughput URL shortener** (Node.js, Express, PostgreSQL + MongoDB) with click analytics, IP geolocation, and RBAC which became the backbone for marketing, HR, and sales link management.
- ▶ Built a **custom WhatsApp Marketing Platform** integrating WhatsApp Business Cloud API with AWS SQS for async message queuing, replacing a third-party tool and **saving ~₹70,000/quarter**.
- ▶ Developed a data synchronisation service integrating LeadSquared, Zoho CRM, and other platforms via REST APIs for near real-time, consistent data flow.
- ▶ Implemented backend API integrations with **Moodle and JIRA** to streamline operational workflows; contributed to 8 products across full SDLC.

Product Associate · CareerLabs Technologies Pvt. Ltd

Dec 2020 – Dec 2021

Bengaluru, India · On-site

- ▶ Prototyped full-stack POCs (frontend + backend) for stakeholder demos, translating product requirements into working technical prototypes that shaped product direction.
- ▶ Collaborated with product and engineering teams across 3 product launches, contributing to requirements gathering, QA, and launch coordination.

CareerLabs Technologies Pvt. Ltd

WhatsApp BSP Platform

H1 2022

Node.js · AWS SQS · MongoDB · WhatsApp Business API · Docker · Vue.js · Docker · WebHooks

- ▶ Built in-house WhatsApp Business Service Provider eliminating third-party vendor dependency and **saving ~₹70,000/quarter**.
- ▶ Integrated WhatsApp Business Cloud API with AWS SQS for async message queuing; webhooks for delivery/read receipts; campaign analytics (send/delivery/read rates, cohort data).
- ▶ Reduced content-to-send turnaround from **7+ days to 2–3 days**. Integrated with LeadSquared, Mixpanel, CleverTap and built workflow automation.

Enterprise URL Shortener

Q1 2022

Node.js · PostgreSQL · MongoDB · Docker · Vue.js

- ▶ Delivered a functional MVP in days after a third-party shortener shutdown broke links company-wide; became the backbone for marketing, HR, and sales.
- ▶ Hybrid database model - **PostgreSQL (Sequelize ORM)** for relational data, **MongoDB** for click analytics - with IP geolocation and browser-level tracking.
- ▶ Added RBAC, password-protected links, custom-alias conflict detection, and a licensing/payment layer to productise the tool as a future SaaS offering.

Side Projects

All two products below were architected and built solo. Backend and APIs and UIs fully owned;

Meeting Analyzer

Q1 2026

Node.js · Express.js · Next.js · MongoDB · AWS · Google OAuth · Redis

- ▶ Built over a weekend to solve a real problem: Google Meet attendance, transcripts, and recordings are gated behind Google Workspace Enterprise plans - this tool lets any user sign in via OAuth and access up to 1 month of past meeting data for free.
- ▶ Designed Mongo-backed permanent archive that retains meeting data beyond platform retention limits, with unified search across attendees, transcripts, and recordings.

Kubernetes Web Manager (Under Development)

Q1 2026

Next.js · @kubernetes/client-node

- ▶ Zero-config Kubernetes dashboard; supports kubeconfig and URL + bearer token auth out of the box.
- ▶ Designed a **0–100 cluster health-scoring algorithm** evaluating node health, pod status, workload conditions, events, and config quality with per-category deduction breakdowns.
- ▶ Real-time monitoring across 15+ resource types (pods, services, ingresses, PVCs, RBAC) using Next.js server actions; multi-arch support (linux/amd64 + arm64).

EDUCATION

Bachelor of Engineering - Computer Engineering

Sep 2016 – Oct 2020

Pimpri Chinchwad College of Engineering, University of Pune

CERTIFICATIONS [\(Credly Link\)](#)

KCNA: Kubernetes and Cloud Native Associate · Linux Foundation

2024

Microsoft Certified: Azure Fundamentals · Microsoft

2023

AWS Certified Solutions Architect – Associate · Amazon Web Services

2023

HashiCorp Certified: Terraform Associate (003) · HashiCorp

2023
